OWLnet e-mail addresses and links
How do I read my e-mail?

OWLnet is Temple's interactive web-based student system that gives you real-time access to most of your records. You can use it to register for classes, change your PIN, update your address information and make payments with a credit card.
You can also view and print certain student records including undergraduate DARS reports, academic history in a composite format or single-semester grade page where you can request a mailed grade report, financial aid application status and awards, account balances and billing history/detail.

OWLnet is available seven days a week, except 4:00 A.M. to 6:00 A.M. Monday through Saturday, and 10:00 P.M. Saturday until 1:00 P.M. Sunday.

IMPORTANT: To insure the confidentiality of your student records, please remember to EXIT the system and then close your browser.

OWLnet e-mail addresses

For your convenience we have provided e-mail and web addresses for the offices that contribute information to this application. Please direct your questions to the appropriate office and we will respond as soon as we are able.

Important Note about your DARS

Temple has launched the new "DARS Web for Students" available for the fall 2008 and future semesters. New and improved features of DARS Web include:

- a convenient list of all your courses;
- a new interactive audit that uses pie charts and bar graphs to show you your degree progress; and
- the ability to use the "Planned Course" feature, so that you can make more efficient course selections in the future.

Since DARS will now be updated nightly, you will have access to your semester grades, transfer credits, and other information in a more timely fashion. There is also a handy "how to" guide under the HELP tab on every page.

Access to DARS Web is via TCportal. An additional user manual and contact information for the DARS staff is available on the DARS web page at http://www.temple.edu/opus/advising-dars. If you have any other questions or comments about your web DARS report, please e-mail the DARS Office.

Effective First Summer Session 2007, all course numbers have been changed to four digits (e.g., from English C050 to English 1002).

Courses you have already completed will be shown with their old numbers. Courses you need to take will be shown with their new numbers. Please note that some older courses that have not been offered in the past five years were not renumbered and may appear in the old form on your DARS lists of requirements during this transition period. If you have any questions about your DARS or your requirements, see your academic advisor.

There is a tool to move between old and new numbers available at the course renumbering website. Click on "Course Menu" available at: renumbering.temple.edu
